1. PRODUCT & COMPANY IDENTIFICATION

Product Name: METHYLATED SPIRITS

Uses: Solvent, Fuel, Cleaning Solvent.

COMPANY DETAILS:
Company: Enviro Chemicals (Aust.) Pty Ltd.
           (A.C.N : 094087493)
Address: 740-744 Woodville Road Fairfield
          East NSW 2165.
Emergency PH: (02) 9755 2012 (Business hour) or

Poisons Information Centre Telephone: 13 11 26
2. HAZARDS IDENTIFICATION

According to the Australian Code for the Transport of Dangerous Goods by Road and Rail

Signal Word: DANGER

<table>

Precautionary statements:

GENERAL

- **P101**: If medical advice is needed, have product container or label at hand
- **P102**: Keep out of reach of children
- **P103**: Read label before use

PREVENTIVE

- **P210**: Keep away from heat/sparks/open flames/lots of surfaces. No smoking
- **P233**: Keep container tightly closed

Product: METHYLATED SPIRIT

- **P240**: Ground/bond container and receiving equipment
- **P241**: Use explosion-proof electrical/ventilation/lighting equipment
- **P242**: Use only non-sparking tools
- **P243**: Take precautionary measures against static discharge
- **P280**: Wear protective gloves/eye protection/face protection

RESPONSE

- **P303 + P361 + P353 + P370 + P378**: If on skin (or hair): Take off contaminated clothing and wash before reuse. Rinse skin with water/shower
- **P303 + P361**: In case of fire: Use foam/water spray/fog for extinction

STORAGE

- **P403 + P235**: Store in a well-ventilated place. Keep cool

DISPOSAL

- **P501**: Dispose of contents/container in accordance with local regulations

4. FIRST AID MEASURES

Description of necessary first aid measures

<table>
<thead>
<tr>
<th>Description</th>
<th>Inhalation</th>
<th>Skin Contact</th>
<th>Eye Contact</th>
<th>Ingestion</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Remove victim from exposure if safe to do so. If rapid recovery does not occur, transport to nearest medical facility for additional treatment. Remove contaminated clothing.</td>
<td>If skin contact occurs, remove contaminated clothing and wash skin thoroughly with water and follow by washing with soap if available.</td>
<td>If in eyes, hold eyes open, flood with water for at least 15 minutes. If symptoms persist transport to nearest medical facility for additional treatment.</td>
<td>If swallowed, do NOT induce vomiting. Transport to nearest medical facility for additional treatment.</td>
</tr>
</tbody>
</table>

Symptoms caused by exposure

Medical attention and special treatment: Treat symptomatically

<table>
<thead>
<tr>
<th>Description</th>
<th>Inhalation</th>
<th>Skin</th>
<th>Eye</th>
<th>Ingestion</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>May cause irritation to the respiratory system. Inhalation of the vapour may result in drunkenness (as per effects of ingestion). Early symptoms may occur at airborne levels of 1000 to 5000ppm.</td>
<td>May include burning sensation and/or a dried/cracked appearance. Prolonged contact may cause defatting of skin which can lead to dermatitis.</td>
<td>May include burning sensation, redness, swelling and/or blurred vision.</td>
<td>Can cause drunkenness or harmful central nervous system effects. The deliberate ingestion of ethanol (50-100ml) may cause inebriation such that safety is impaired. Effects of a small intake may include excitation, euphoria, headache, dizziness, drowsiness, blurred vision, and fatigue. Ingestion of a large amount may lead to severe acute intoxication, tremors, convulsion, loss of consciousness, coma, respiratory arrest and death.</td>
</tr>
</tbody>
</table>

5. FIRE FIGHTING MEASURES

Suitable extinguishing equipment

Alcohol stable foam, water spray or fog. Dry chemical powder, carbon dioxide for small fires only. Do not use water in a jet.

Specific hazards arising from the chemical

Carbon monoxide and/or carbon dioxide may be evolved.

Special protective equipment and precautions for fire fighters

Wear full protective clothing and self contained breathing apparatus. Hazchem code 2YE.
6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Avoid contact with spilled or released material. Shut off leaks, if possible, without personal risks. Isolate hazard area and deny entry to unnecessary unprotected personnel. Remove all sources of ignition in the surrounding area. Take precautionary measure against static discharge. Ensure electrical continuity by bonding and earthing all equipment.

Environmental precautions
Use appropriate containment to avoid environmental contamination. Prevent from spreading and entering waterway using sand, earth or other appropriate barriers. Attempt to disperse the vapour or to direct its flow to a safe location for example by using fog sprays. Ventilate contaminated area thoroughly.

Methods and materials for containment and cleaning up
For small spills (< 1 drum), transfer by mechanical means to a labelled, sealable container for product recovery or safe disposal. Allow any residues to evaporate or use an appropriate absorbent material and dispose of safely.
For larger spills (> 1 drum), transfer by means such as a vacuum truck to a salvage tank for recovery or disposal. Do not flush residues with water. Retain as contaminated waste. Allow any residues to evaporate or use an appropriate absorbent material and dispose of safely.

7. HANDLING & STORAGE

Precautions for safe handling
Highly flammable product. Avoid breathing vapours. Handle and open containers with care in a well-ventilated area. Ensure that the workplace is ventilated such that the Occupational Exposure limit is not exceeded. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Do not eat, drink or smoke in contaminated areas. Electrostatic charges may be generated during transfer. Electrostatic discharge may cause fire. Ensure electrical continuity by earthing all equipment. Flameproof equipment necessary in area where chemical is being used. Vapours may accumulate in low or confined areas.

Conditions for safe storage, including any incompatibilities
Bulk storage tanks should be bunded. Store in a well-ventilated area, away from sunlight, ignition sources and other sources of heat. Do not store near strong oxidants.
8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure control measures
From National Occupational Health & Safety Commission (NOHSC) Worksafe Australia - Ethanol: 1880mg/m³ (1000ppm) TWA (8hr)

Biological monitoring
No biological limit allocated.

Engineering controls
Ensure that adequate ventilation is provided. Maintain air concentrations below recommended exposure standards. Avoid generating and inhaling mists and vapours. Keep containers closed when not in use.

<table>
<thead>
<tr>
<th>Eye and face protection:</th>
<th>Wear safety goggles.</th>
</tr>
</thead>
<tbody>
<tr>
<td>skin protection:</td>
<td>Use solvent resistant gloves, nitrile for longer term protection or PVC and neoprene for incidental splashes.</td>
</tr>
<tr>
<td>Respiratory protection:</td>
<td>If work practices do not maintain airborne level below the exposure standard, use appropriate respiratory protection equipment. When using respirators, select an appropriate combination of mask and filter. Select a filter for organic gases and vapours (boiling point &gt; 65 °C). Respirators should comply with AS1716 or an equivalent approved by a state/territory authority.</td>
</tr>
<tr>
<td>Thermal hazard:</td>
<td>Not applicable.</td>

10. STABILITY & REACTIVITY

HAZARDOUS REACTIONS: PRODUCT IS STABLE UNDER NORMAL CONDITIONS OF USE, STORAGE AND TEMPERATURE. DO NOT STORE IN METAL CONTAINERS ESPECIALLY ALUMINIUM.

MATERIALS TO AVOID: AVOID CONTACT WITH STRONG ACIDS AND STRONG OXIDISING AGENTS. DO NOT CONTACT WITH ALUMINIUM. OTHER METALS TO AVOID ARE TIN AND ZINC. INCOMPATIBLE WITH PERCHLORATES, PEROXIDES, PERMANGANATES, CHLORATES, NITRATES, CHLORINE, BROMINE AND FLUORINE.

POLYMERIZATION: PRODUCT WILL NOT UNDERGO DANGEROUS POLYMERIZATION.

Product: METHYLATED SPIRITS

Conditions to avoid
Avoid heat, sparks, open flames and other ignition sources.

Incompatible materials
Strong oxidising agents.

Hazardous decomposition products
Burning can produce carbon monoxide and/or carbon dioxide.

11. TOXICOLOGICAL INFORMATION

| Acute toxicity: | Low toxicity in animals -
| LD50 Oral (rat): 7060mg/kg
| LC50 Inhalation (rat, 6h): 5900mg/m³ |

| Skin corrosion/ irritation: | Mild irritant. Prolonged contact may cause defatting of skin which can lead to dermatitis. |

| Serious eye damage/ irritation: | Vapours may irritate the eyes. Liquid or mists may severely irritate or damage the eyes. |

| Respiratory or Skin sensation: | Not expected to be a sensitisier. |

| Germ cell mutagenicity: | Not expected to be mutagenic. |

| Carcinogenicity: | Not expected to be carcinogenic. |

| Reproductive toxicity: | Not expected to impair fertility. |

| Specific Target Organ Toxicity (STOT) – Single exposure: | Data not available. |

| Specific Target Organ Specific Target Organ Toxicity (STOT) – Repeated exposure: | Long term exposure by swallowing or repeated inhalation, may cause degenerative changes in the liver, kidneys, gastrointestinal tract and heart muscle. |

| Aspiration hazard: | Aspiration into the lungs when swallowed or vomited may cause chemical pneumonitis which can be fatal. |
12. ECOLOGICAL INFORMATION

Ecotoxicity

Acute toxicity:

- Fish – Expected to be harmful
- Aquatic invertebrate – Expected to be harmful
- Algae – Expected to be toxic
- Microorganisms – Expected to be harmful

Chronic toxicity:

- Fish – Data not available
- Aquatic invertebrate – Data not available
- Algae – Data not available
- Microorganisms – Data not available

Persistence and degradability: Biodegradable.
Bioaccumulative potential: Data not available
Mobility in soil: Miscible with water.
Other adverse effects: Data not available.

13. DISPOSAL CONSIDERATIONS

Environmental precautions:

CAUTION:
Keep spills and cleaning runoff out of municipal sewers and open bodies of water.

Disposal:
Dispose of in accordance with local, state and federal regulations.
14. TRANSPORT INFORMATION

Australian Code For Transport of Dangerous Goods by ROAD and RAIL
