

THE FRESH AIR CLIP

Believe it or not, urinals are not the only producers of smells in your washroom. Toilets in mens washroom, disabled washrooms and even ladies washrooms all can smell a bit off.

The Fresh Air Clip has been designed out of a polymer that contains fragrance oils. This polymer gradually releases the fragrance over 30 days giving your cubicle areas the fragrance lift they need.

Made of environmentally material, these 100% recyclable Bowl Clips will not dissolve in or pollute water.

They are easy to use, simply clip them over the outside of the bowl and watch them shrink as the fragrance evaporates.

PART NO	DESCRIPTION	COLOUR
EBC72HM	Herbal Mint	Light Green
EBC72MG	Mango	Orange/Red
EBC72SA	Spiced Apple	Dark Red
EBC72CB	Cotton Blossom	Light Blue

Facing out

The clip should be placed over the rim to the rear of the bowl with the main side facing out, and the seat down.

30x more

30% more air freshener than standard rimsticks. Gradually releases air freshener over 30 days.

Shrinks by 30%

Used Clip will shrink by 30% in 30 days, to a tight fit

Alternate fragrances

By using different fragrances each time patrons will notice the pleasant fragrance more than the same old one

Prevent this

Make it a pleasure to enter the washroom. By using Fresh Air Clips you and your patrons will enjoy pleasant fragrances.

Present this

From now on the smell in your washroom will remind patrons of an up market washroom in a 5 star hotel, and they will treat it like one.
